

## Senior Lead Residential Carpenter Bridge City Design-Build

**Location:** Pittsburgh, PA

### **Company Overview:**

For the last 20 years, Bridge City Design-Build has been providing quality remodeling services to homeowners and businesses in the Pittsburgh area. Our company has one goal: to give our clients personalized service with critical attention to detail. Bridge City Design-Build is looking for both part-time and full-time carpenter candidates with the opportunity of overtime when necessary. For some projects and jobs, travel may be required; however, the majority of our jobs are within 20 miles of our office located in the North Shore of Pittsburgh. The salary for employees is commensurate with experience and level of skills. We have plenty of work to get done; therefore, one will not get bored here!

### **Job Overview:**

Bridge City is seeking experienced Carpenters for Commercial and Residential remodeling in all phases. As the Senior Lead Residential Carpenter, you will be responsible for all basic functions of construction, including but not limited to demolition, framing, finish trim installation, window and door installation, drywall, siding installation, and many other aspects of construction. This role must be able to actively lead and train other carpenters, skilled laborers, and crew members; all while managing an exceptional client experience. The ideal candidate will set clear goals for each crew member on site, give clear instructions, as well as provide hands-on assistance when needed. The ideal candidate will have a strong attention to detail and the ability to work independently or as part of a team.

We have a large variety of both large and small jobs; and we continue to take on more every day! If you have experience in framing, drywall, painting, kitchens, cabinets, bathrooms, windows, doors, whole house remodeling, and/or additions; apply today!

### **Roles:**

- Direct and manage crew from demo, framing, to high-end trim install.
- Mentor/Train incoming employees.
- Understand customer requirements.
- Creating and adjusting project schedules accordingly.
- Lead crew with hands on building and remodeling work including: installing kitchens, baths, flooring, tile, and cabinets, minor plumbing, minor electric (all the things it takes to build/remodel homes and commercial properties).
- Review materials list to ensure that timelines are adjusted for availability, cost, and time constraints.
- Coordinate quality control of subcontracted work.
- Complete QA and QC forms.
- Prepare and provide administrative staff with daily construction reports.
- Inspect sites and conduct general repairs or maintenance as needed.

- Follows established safety rules/regulations and maintains a safe and clean environment.
- Perform other trades: preferred (light electrical, plumbing, tile, etc.).
- Communicate and coordinate with cabinet shop crew regarding materials, orders, jobs, etc.
- Must be able to accurately take measurements and calculate the size and amount of material needed for a project.
- Must be able to read and understand blueprints, architectural/shop drawings, etc.
- Perform other related tasks as assigned.

**Requirements:**

- Supervisor experience required.
- Construction: 2 years (Required).
- Must have at least 3-5 years carpentry experience and knowledge of remodeling.
- Demonstrated ability to lead multiple construction phases simultaneously.
- Excellent time management skills.
- Effective communication skills.
- Must have experience in computer programs and digital media for logging time, intercompany communication, receipt tracking, and job documentation.
- Possess a good work ethic, positive attitude, and demonstrate leadership qualities.
- Knowledge of job site safety rules and regulations (OSHA).
- Knowledge of woods and their uses and adaptability.
- Knowledge of methods, tools, and equipment used in carpentry.
- Adhere to all health and safety standards and report any issues immediately.
- Background check required.

**Experience:**

- Carpentry: 3 years (Required)
- Supervising: 2 years (Required)
- Construction: 3 years (Required)
- Frame carpentry: 2 years (Preferred)
- Trim carpentry: 3 years (Required)
